The race riots seem to be confined to the North and West of late.

The shrinkage in Boston copper stocks is estimated at $138,000,000 it is said.

Mr. Bryan is continually reminding one that he is a Democrat. Has his Democracy ever been questioned?

Kansas seems to be getting her full share of the heat—thermometer 112 in the shade, and blistering winds sweeping the plains.

It cost France 600,000 francs to send President Loubet to England. He and King Edward must have moistened their palates quite frequently during his stay over there.

Our "devil" has accomplished a wonderful feat—he has worn out a pair of corduroy breeches.—*Lumberton Argus.* Most likely that feat was accomplished by wearing holes in the seat.

Yes, they swing up negroes in Illinois with as much grace as they do in Delaware and South Carolina for committing criminal assault on defenseless white women. And not only was a negro swung up in Danville, Ill., but a bonfire was made of his dead body.

It is said that Addicks is growing tired of paying the expenses of the Republican machine in Delaware while others reap the benefit. He sees no chance of his ever reaching the goal—the United States Senate—and is likely to play quit at any time and devote his time to his gas plant, a thing which he ought to have done years ago.

Speaker Neff of the Texas Legislature received a modest request a few days ago from the Indian Territory, reading about as follows:

DEAR SIR: I have discovered a dead shot for the destruction of the boll weevil; so please send me a check for the $50,000 prize offered by the State by return mail. Yours truly.

French doctors have discovered a new disease which they call "motor intoxication." It is an affection of the mental faculties and directly traceable to scorching on automobiles. They say the high rate of speed of the machine works a rider up into the same state of mind as the man who imbibes freely of alcohol. Wonder is that lovers of corn juice in the "dry" counties of Western North Carolina have not chipped in and bought an auto.

LOCAL DOTS.

— The farmers of Darlington will run an excursion to Wilmington on Aug. 13th—$1.50 for round trip.

— British schooner "Lillie," previously reported at quarantine from Cienfuegos, arrived up yesterday.

— There was nothing doing in either spirits turpentine or rosin on the local market yesterday. Receipts were 83 casks and 401 barrels, respectively.

— Mr. James Dodd, of the Wilmington Tobacco Warehouse Company, has gone to Georgetown, S. C., to solicit tobacco shipments from that vicinity for the Wilmington market.

— In Justice Fowler's court yesterday Mary Crawford, colored, was found not guilty of having stolen the pocketbook and money from Mamie Garfield, the colored dame who fell asleep in a restaurant on the wharf Tuesday and was robbed.

— The Mayor's court was without interest yesterday. Two of the fifteen hundred excursionists in the city Tuesday were let off with the costs in cases against them for being drunk and down, while Joe Williams, colored, who was drunk and disorderly, was fined $10 and costs or given 30 days on the roads.

— Thos. Ricks, colored, who formerly kept a restaurant on the wharf, just south of the Custom House, died Tuesday at the hospital of paralysis. His remains were sent to his former home at Rocky Mount for interment. Ricks was a well known character on the wharf.

Consul General Long.

United States Consul General Long, of Cairo, Egypt, whose death was noted in the Associated Press dispatches yesterday morning, was a native of Wilmington as stated. His father and mother moved to this city from Columbus county about 58 years ago. Mrs. Long was a Miss Gore, of Columbus county, and Consul General Long was a first cousin of Mr. D. L. Gore, of Wilmington. He was a district judge in Florida at one time and was chairman of McKinley's first inauguration committee. For many years he was a prominent pension attorney of Washington, D. C., and was reputed to be very wealthy. He was appointed in 1899 Consul General to Cairo, Egypt.

Mr. and Mrs. Swinson Bereaved.

James Otto, infant son of Mr. and Mrs. James Swinson, No. 917 North Seventh street, died Tuesday night at Mars Bluff, N. C., whence Mrs. Swinson had carried the child with a hope the change would do him good. The remains were brought to the city on the 1:40 P. M. train from the South yesterday and the funeral will be conducted from the family residence by Rev. A. D. McClure this afternoon at 4 o'clock. The interment will be in Bellevue.

Fine Bill at The Casino.

Another large audience was highly pleased with the vaudeville bill at The Casino last night, many competent critics declaring the show the best yet seen on the beach. The company closes its engagement Saturday with matinee and night performance and all should visit The Casino before that date. Tickets have now been reduced to forty cents, including round-trip fare on the cars. They are on sale at Front and Princess streets every evening at 7 o'cloak.

Standard Oil Barges.

The tug "Standard" arrived yesterday from New York towing Standard Oil Barge No. 57 with about 10,000 barrels of oil for the North Carolina branch of the company here. The "Standard" delivered the barge to the tug "Jones" at Southport and proceeded with No. 58 to Savannah and Jacksonville. No. 57, after discharging part cargo here, will proceed in tow of the "Jones" to Charleston with nearly as large quantity of oil as was left here.

Masonic Temple Lease.

There was filed for record yesterday at the Court House by Iredell Meares, Esq., counsel for the Masonic Temple Corporation, a lease dated Jan. 14th 1902, by which the Masonic Temple Corporation cancels a former lease to the Fishblate Clothing Co., of date July 14th, 1899, and makes a new one to the same party for one year from Oct. 1st, 1901 to Sept. 30th, 1902, the annual rental being stipulated at $1,000 per year.

No Baseball This Week.

Manager J. H. Tucker of the Wilmington "Black Stocking" baseball team received a telegram from the Norfolk colored nine at Goldsboro, saying that it would be impossible for the team to get here for the three games advertised for to-morrow and Saturday. The Goldsboro colored team, which is said to be one of the fastest in the South, will be here for three games Tuesday, Wednesday and Thursday of next week.

THE VETERINARIANS.

State Board of Examiners and Association Adjourned in This City Yesterday.

MEET AT GREENSBORO NEXT.

Address by Dr. Tait Butler the Feature of the Closing Session—Gold-Headed Cane for Hon. T. E. Whitaker, of Oak Ridge—Notes.

The North Carolina Veterinary Association concluded its second annual sessions in this city yesterday and adjourned shortly after noon to meet next July in Greensboro, the exact date to be announced later by the President. Many of the members of the Association left last night for their homes, though a few remained in the city and at the beach until this morning.

The meeting yesterday morning was called to order by President Petty at 9 A. M. in the Elks' Home. An increased attendance was noted. The feature of the meeting was an able address by Dr. Tait Butler, State Veterinarian, upon the veterinary work being conducted by the Agricultural Department of the State. He referred to the Texas fever, tuberculosis, cholera and other infectious diseases with which the Department has had to deal and urged the co-operation of the Veterinary Association. Much has been accomplished in the eradication of these and other diseases but there is yet much to be done. Conditions as to hog cholera have been much improved but the authorities are finding cholera among swine the most difficult problem before them. Dr. Butler's address was listened to with much pleasure and profit.

The newly-elected officers were invited to assume their respective positions and they did so, thanking the Association for the honor conferred in their election. The speech of Dr. Petty, the president, was especially pleasing. Regret was express that owing to illness in his family, Dr. W. C. McMackin, of Raleigh, could not be present. A telegram was received from Hon. T. E. Whitaker, of Oak Ridge, expressing regret at his inability to come; also on account of illness.

Mr. Whitaker was a member of the last Legislature and was the author and champion of the bill establishing the examining board for veterinary medicine and surgery. The Association had planned a pleasant surprise for him in recognition of his splendid service to the veterinary interests of the State and it was greatly regretted that he could not be present. However, a handsome gold-headed cane, suitably inscribed, was exhibited to the Association and Dr. J. W. Petty was delegated the authority to privately present the same to Mr. Whitaker in behalf of the body. The cane is a beautiful one and is a splendid token of appreciation.

The remainder of the questions for applicants for license to practice veterinary surgery and medicine were submitted in the forenoon. The examination in chemistry, materia medica and therapeutics was conducted by Dr. Petty; that on surgery by Dr. Griffin, and the practice of medicine by Dr. Petty in the absence of Dr. McMackin. There were only three applicants at the "finish," one of the number having "dropped out" the first day. The result of the examination will be made known later.

FUNERAL OF MR. E. REHDER.

Services at 5 O'clock This Afternoon from Late Residence—Interment.

The funeral of the late Engelhard Rehder, whose sad death was announced yesterday morning, will be conducted this afternoon at 5 o'clock from the late residence, No. 819 Red Cross street, thence to St. Paul's Lutheran church and Oakdale cemetery, where the interment will take take place. The services will be by Rev. Dr. A. G. Voigt, assisted by Rev. H. W. A. Hanson. Dr. Voigt will arrive this morning from the North, where he has spent the past few weeks. Mr. C. F. Will Rehder, who was in Asheville when the death of his brother occurred, missed train connection at Greensboro yesterday and will also arrive this morning.

The news of Mr. Rehder's death was received in the city yesterday with the greatest sorrow. He was 35, instead of 34 years of age as noted yesterday, and had just entered upon his life's most useful work. The bereaved ones have the tenderest sympathy of the community.

The Temperature Yesterday.

Although the maximum temperature at Wilmington, as officially recorded at the Weather Bureau, was only 87 degrees yesterday, the humidity was very high and to the average person the weather was decidedly uncomfortable. The highest point attained by the mercury yesterday came at about 3 o'clock and it stuck close to the 87 notch for several hours. The weather was one degree cooler than on the day before but the humidity in the atmosphere made it appear hotter.

The Trestle Jumper.

Nothing was learned yesterday to corroberate the theory of Motorman Justice, of the C. R., L. & P. Co., that some one jumped from the trestle over the sound in front of his car late Tuesday night. The motorman was evidently the victim of an optical illusion.

CAPTURE OF AN OX THIEF.

Eli Carr, Colored, Walked Into a Trap Cleverly Set for Him by Mr. Jno. F. Garrell, Jr.

Eli Carr, colored, aged about 21 years, was arraigned in Justice Fowler's court yesterday and sent to jail for the September term of Superior Court in default of $100 bond. Carr is charged with the larceny of an ox and and the manner of his capture is worth the telling.

Tuesday he drove the animal out to the Sans Souci farm and offered him for sale to Mr. J. F. Garrell, Jr., for $20. Mr. Garrell knew the ox was worth every cent of $30, but told the negro he couldn't pay more than $18, which was promptly accepted. Mr. Garrell then told Carr he didn't have the money for immediate payment, but he would glad for him to call the following day for the amount. To this the negro consented and left. Mr. Garrell then began to inquire far and wide if an ox had been stolen and the owner soon appeared in the person of Cicero Dixon, colored, who lives near Castle Hayne. He said the beast of burden had been stolen the night previous to its sale from his yard. The animal was clearly identified and when Carr called for his money yesterday he was bound hands and feet by Mr. Garrell and others until Constable Savage could arrive. The negro told various tales as to how he came into possession of the animal, but after trial confessed everything in jail.

SUE C. R., L. & P. CO. FOR $10,000.

Conductor W. E. Beaton Asks Damages in That Amount—His Injuries.

Conductor W. E. Beaton, formerly with the C. R., L. & P. Co., has employed Messrs. Russell & Gore and announces his intention of suing the company for $10,000 damages alleged to have been sustained by him in an accident two weeks before last Christmas when in trying to adjust a trolley spring on top of a car at Front and Princess streets, he fell across a live wire and was thrown to the pavement, after having been badly burned. It will be remembered that Policeman Frank George saw the accident and caught the man, thereby breaking the fall.

Mr. Beaton left the service of the company yesterday. He alleges that he has lost the sight from one eye and has in other respects been physically injured from which he cannot hope to recover. No notice of the suit has as yet been filed but Mr. Beaton says it will be served in a few days by his attorneys.

STATE NORMAL EXAMINATION.

Applicants for Entrance May Stand Examinations at Court House To-morrow.

To-morrow, beginning at 9 o'clock, at the request of President Chas. D. McIver, Prof. Washington Catlett will conduct at the Court House an examination of applicants for admission to the State Normal and Industrial Institute at Greensboro, N. C. The number of applicants for admission to the college exceeds the number allotted to New Hanover county and in order to determine who shall receive the scholarships, the competitive examination will be held.

Any young lady, 16 years of age or over, who is willing to pay $100 of her expenses during the year and will pledge herself to teach two years after graduation, is entitled to enter the competitive examination.

OLIVEROS CASE IN SAVANNAH.

Judge Gave Voluntary Order for Mistrial. Unfortunate Remark.

[Special to Atlanta Constitution.]

SAVANNAH, Ga., July 28.—A mistrial was ordered in the case of J. B. Oliveros charged with larceny after trust in the alleged misappropriation of more than $5,000 of the funds of the Atlantic Coast Line, of which he was cashier at Savannah.

On the opening of the case this morning Judge Pope Barrow voluntarily gave an order for a mistrial, basing this upon the belief that an opinion he had expressed as to certain evidence yesterday would tend to prejudice the jury as to the weight it should carry.

Judge H. D. D. Twiggs asked that the case proceed and that, if guilty were the verdict, a mistrial might then be declared. Attorney F. M. Oliver, for the defence, moved dismissal on the plea that his client had been in jeopardy.

Judge Barrow admitted neither motion, and the order for a mistrial was granted.

Lawyers are discussing the remarkable case generally. Some hold Oliveros cannot be tried again; others that the mistrial ordered operates as any ordinary mistrial.

CLARKTON TOBACCO WAREHOUSE.

Opening Break Last Monday Was Great Success—The Prices.

[Special Star Correspondence.]

CLARKTON, N. C., July 29.—A few weeks ago the town was kept lively by an average of 200 farmers coming every day with cucumbers for the Heinz salting plant here. But all records were broken yesterday at the Banner Warehouse, for 82,720 pounds was sold. Most of this was sand lugs and in view of the prevailing low price of tobacco at present, it sold well.

Manager Rux proved himself equal to the occasion and will manage the warehouse to the best interest of the farmers.

Some of the tobacco was bought by independent buyers, but most of it was secured by the American Tobacco Co.

DR. VOIGT ELECTED.

A Popular Wilmington Divine Chosen Dean of Lutheran Theological Seminary.

AT CHARLOTTE TUESDAY.

Newly Elected Professor Travelling in the North and Nothing Known as to His Acceptance or Declination. His Life's Work.

Rev. A. G. Voigt, D. D., pastor of St. Paul's Lutheran church, this city, has been elected professor of systematic theology and dean of the Southern Lutheran Theological Seminary at Charleston, S. C., to succeed the Rev. Dr. J. A. Morehead, who recently resigned to become president of Roanoke College, Salem, Va. The election of Dr. Voigt took place at a series of meetings of the directors of the Seminary at Charlotte Tuesday during which several prominent divines of both the Northern and Southern churches were spoken of. However, Dr. Voigt's election from the number was unanimous. The belief was expressed in Charlotte that Dr. Voigt would accept the call. An effort was made yesterday to ascertain Dr. Voigt's view of the election and to learn whether or not he would accept. He is absent from the city on a trip North and will not return until to-day, consequently no expression from him could be obtained. He is highly esteemed in Wilmington not only by his own church, but by the public generally. Strong pressure will be brought to bear upon him to remain.

The Charlotte *Observer* of yesterday, in speaking of Dr. Voigt's election and the proceedings of the Board, says:

"The members of the Board, who were in attendance, are: Rev. Dr. Robert C. Holland, of this city, president of the Board; Hon. John Ficken, of Charleston, S. C.; President George B. Cromer, of Newberry College, Newberry, S. C.; Rev. C. A. Freed, of Columbia, S. C.; Hon. C. M. Efird, of Lexington, S. C.; Rev. J. H. Wilson, of Salisbury; Rev. W. C. Shaeffer, D. D., of Savannah, Ga.; Rev. A. H. Beck, of Albemarle; Mr. J. D. Heilig, of Salisbury.

"The seminary is reported to be in fine shape now and the prospects for good work ahead are very encouraging. During the past year there were 20 students enrolled and more than that number will register when the fall term begins this year. The seminary is a very important institution to the Southern Lutheran Church. It is the theological organ of eight synodical bodies, embracing most of the Southern States.

"Dr. Voigt, the newly elected president and professor, is one of the most scholarly men in the Lutheran ministry and is a fine theologian. He is now pastor of St. Paul's Lutheran church in Wilmington, where he is popular and respected. Dr. Voigt is about 40 years of age and will bring with him to his new position several years of valuable experience in teaching. He was a professor in the seminary before it was moved to Charleston, while it was located at Newbern and he resigned his place there to accept the pastorate of the Wilmington church."

TESTIMONIAL TO MR. SMITH.

J. F. Garrell & Co., Incorporated, Pass Resolutions Upon His Departure.

At a special meeting of J. F. Garrell & Co., incorporated, held on Tuesday, July 8th, 1903, for the purpose of considering the resignation of Joseph D. Smith, secretary and treasurer of said corporation, and the election of his successor. Mr. Smith's resignation was accepted, Mr. E. Y. Davis was elected to succeed him, and the following resolutions were unanimously adopted:

"*Resolved*, That it is with much reluctance and great regret we are called upon to sever the very pleasant business relations which have existed for some years. And since the election of Mr. Joseph D. Smith, who will at an early date take his departure from our city to engage in the insurance business at High Point, N. C., our association has always been most ipleasant and agreeable, and his service in the work of our corporation has been most helpful and profitable.

We have individually found him kind, pleasant, courteous and accommodating, always in a good humor and with a pleasant word for all. His abilities as a thorough, competent, accurate and painstaking accountant have been of the highest order. His accounts have been beautifully written, correctly kept, clean and neat, and properly balanced. To say that we shall miss him goes without saying.

We sincerely trust that in his new field of labor he may enjoy perfect health, long life, and be abundantly blessed with financial success. Our loss will be others' gain, and not only his associates but Wilmington can ill afford to lose so praiseworthy and valuable a citizen. His friends are many, and all regret his departure.

These resolutions but feebly express our regret at his departure from our midst, or our high appreciation of the man, and his abilities, and his true worth—for we esteem him more than words can tell.

[Signed] J. F. GARRELL, President.
J. J. HOPKINS, General Manager.

WILMINGTON, N. C.

THURSDAY MORNING, JULY 30.

THE SOCIALISTS. AT HOME AND ABROAD.

Houston (Tex.) *Chronicle*: The recent German elections are of importance to Americans because of the great gain of the socialists. The vote of over 3,000,000 polled by that party, an increase of over 900,000 in five years, resulted in the election of no less than 23 additional socialist members of the Reichstag.

While in the United States, at the Presidential election of 1900, Eugene V. Debbs, the Socialist-Democrat Presidential candidate, only polled 87,814 votes, it is to be remembered that in 1896 there was no Socialist-Democrat candidate. In 1900 Joseph F. Malloney, the Socialist-labor Presidential candidate, polled 39,739 votes, a gain of some 3,455 over the vote of Charles H. Matchett, the candidate of the same party in 1896.

Now, while the combined Socialist vote is only 125,553, an infinitesimal number compared to the 7,104,779 votes cast for McKinley and the 6,502,925 cast for Bryan, the Socialist-Democrat party has grown very rapidly in strength during the past few years. This growth has been not only by outright accessions to its ranks, but by the spread of its ideas among old party men of the Democratic and Republican parties. Some of these either hope to do Socialist work within their respective parties and others are as yet unconscious whither they are tending.

With the Socialists in possession of one-fourth of the seats in the reichstag, Germany, the land of many petty parties, is practically divided into two parties of magnitude, the Roman Catholic center, with 101 members, and the Socialist-Democrats, with 81; so Belgium is divided into a clerical party and a Democratic party.

The remaining 215 members of the German Reichstag consist of small parties, like the Free Conservatives, with 19 members; the Richter Radicals, with 21; with the exception of the Conservatives and the National Liberals, with 53 and 52 members respectively.

It has been proposed by extremists among the anti-Socialists that Chancellor von Bulow inaugurate a vigorous policy of force, dissolve the new Reichstag and abolish universal suffrage, restricting the franchise to those not likely to be inoculated with the Socialist virus.

In controversion of this view, saner people, within and without Germany, who give attention to public affairs, point to the anti-Socialist experience in Saxony, where the right to vote was abridged and Socialists expelled from the Saxon sub-Parliament, with the usual result, according to the principle, "The blood of the martyrs is the seed of the Church," that the whole of Saxony is Socialist at the present time.

The German Chancellor, who does not lack astuteness, sees this as well as his self-constituted advisers, and is evidently wisely playing a waiting game.

When the strength of the Socialists in Germany and other parts of Europe is taken into consideration, the problem of American Socialism is inevitably presented. The militarism, the systems of unjust privilege honeycombing many of the continental countries, have given it birth and sustenance. The tariff-bred trusts and the trust-bulwarked tariff have given it birth and sustenance in America. The small growth of American Socialism will, by existing conditions, swell into a large growth. The reason is not only because of the contagion of the ideas of European reformers, but because conditions in our country cry aloud for a remedy. The Socialist remedy appeals to idealists, whose heads are swayed by their hearts. They propose homeopathic treatment on an allopathic scale to cure the evils of government by more government and still more government. Such prescription taken by a man would mean death; in the case of a nation the result would be the same—anarchy.

What the true remedy is was formulated nearly a century ago by the great man who founded the American Democratic party. Because of the soundness of the principle, the Democratic party still lives, the oldest party in the United States and party of formidable strength. The principle which is scientifically, esthetically and morally perfect and simple, as great truth always is, was thus phrased by its author: "Equal rights for all and special privileges for none."

This is the Democratic creed. It is the creed of righteous statesmen and citizens of all parties of all countries. He who departs from it is anathema not by human excommunication, but by the working of the moral law, the Nemesis that treads upon the heels of all offenders, both great and small.

WHY COUNTRY PEOPLE WANT TO GO TO TOWN.

Says the New Orleans *Picayune*: A writer in the *World's Work* for August complains that the current system of education was made for city people only, and this has made the country people want to live in cities. He says of the textbooks: "Apparently, they have been written solely for children, sons and daughters of clerks, merchants, bankers and traders. They do not even suggest to the farmer's child the possibilities of science and training in agricultural work. On the contrary, the natural and logical inference from our general scheme of rural instruction is that education is not indispensable to the farmer, but is intended chiefly for the commercial and professional classes."

Continuing, this writer claims that "to this fact more than to any other, perhaps, is due the backwardness of education in agricultural States. The school has not taken hold of farm life. Plants, soils, animals, insects, flowers, the weather, the forests and the sky—from all these things it has stood apart, while it has babbled of subjects unfamiliar and uninteresting to the country-bred child. All rural education has been hacked and newed to fit the Procrustean bed of the city model."

It may be claimed that a town-trained mind is not competent to express an opinion on the subject, but the idea set forth in the above seems so entirely illogical to minds that have had both country and town experience, that it is surprising that it was ever presented. The fact [remains that agriculture is a most complicated assemblage of conditions and circumstances, and it has never been reduced to a science, nor ever will be, until we shall understand and be able to foreknow the weather. As matters now stand, the farming interests of this country are fairly satisfactory.

But the reason why country boys and girls want to go town is not because the school books made them dissatisfied, but because man is a gregarious creature. The city is full of life, activity and excitement. The country is dull, lonesome and monotonous. The poets who wrote most of country life lived in London. But the fact remains that many of the ablest statesmen, merchants and men of affairs were country boys, and the country girl in a city dress is nearly always a belle.

When city people are rich enough they own country residences for the summer, and they spend a great deal of money on farming and they spend a great deal of money on farming and fine live stock. Few persons farm for pleasure. They try to make all the money they can, and when they get rich enough they remove to town and engage in the business of the city. Agriculture as a science can only be learned in laboratories and experimental farms, and these are usually in the environs of cities.

Schoolbooks have nothing whatever to do with giving persons a taste of town life. It depends on matters far removed from what is taught in the schools.

CURRENT COMMENT

——Negroes are fleeing Southward to escape the fury of the Northern mobs. It would be a queer turn in the whirling of fate if the future should produce an "Uncle Tom's Cabin," written from a Southern standpoint, with the North as the scene of the cruelty and oppression. —*Chicago Chronicle, Dem.*

—— Jos. Cannon takes an important step in his public career when he assumes the Speakership of the House of Representatives. He could do nothing really greater than to restore the House of Representatives to its old representative position. It once represented the people, and many men rose to eminence and usefulness on the floor. Now it is a body of "chair-warmers," ruled by the speaker and his associates on the Committee on Rules,' and very naturally under such circumstances the intellectual and honorable caliber of the body has declined.—*Cincinnati Enquirer, Dem.*

—— Three-fourths of the Republican editors of the North who are meekly submitting to another term of Rooseveltism do not believe in Roosevelt, but they are afraid to say so. Practically every Democratic paper in the South has opposed the Bryan movement. They are tired of trying to carry Mr. Bryan, and have said so. Why is it Republican newspapers that have been made bow-legged trying to carry Roosevelt are afraid to throw him overboard? Is it cowardice, lack of independence, or what?—*Chattanooga News, Dem.*

— R. L. Nichols, former sheriff of McDowell county, who was short in his accounts and went away, leaving his sureties to settle, has been arrested in Oklahoma and will be brought back to McDowell for trial.

— A special to the Charlotte *Chronicle* says the large hotel at Nag's Head, with part of its furnishings, was completely destroyed by fire Sunday evening. Mrs. Lowe, wife of the proprietor, died from excitement during the fire.

— During the present month 15 new rural free delivery routes have been established in this State, bringing the total number up to 337. Only one route has been dropped, this one being at Elizabeth City. Its length was only about a mile and the pay only $50 a year.

— Seventeen prisoners in the county jail at Washington formulated a plan a few days ago to escape and were in the act of doing so, expecting the officer to leave the outer door open as he opened the inner one to take a prisoner and work him on the streets. Joseph Chauncey, the policeman, held them back with his hand on his gun and frustrated the attempt just as one of the men was coming through the door.

— Wilson *Times*: Mr. R. E. Pitt, a crack farmer of Edgecombe county, is in town to-day. They say he can get more work out of hands than most any one. He takes his hands in the winter time and grinds oil cake and gins cotton and in the summer makes cotton so as to get the seed to grind. Fearing he had not sufficient crop this season, it is said that he put in an extra 25 acres and tends it with an ox, doing the plowing at odd times himself.

— Winston *Sentinel*: Mrs. Barnett, known as "Aunty" Barnett, of Iredell county, is spending a few days at the home of Mr. C. L. Windsor, in West Salem. Mrs. Barnett is 81 years old and saw a train Friday for the first time. She lives between Statesville and Elkin. She has never been to the latter place, but visited Statesville about 45 years ago. Mrs. Barnett says she raises corn and cotton and up to this time has been able to hoe her own crops.

— Miss Young, of Raleigh, had a miraculous escape from drowning Monday evening while bathing in the surf at Virginia Beach, Va. Miss Young and her escort, a young gentleman from Petersburg, were carried by the current beyond their depth, and the escort found himself unable to assist Miss Young. Two bystanders, seeing the situation, rushed at once to the drowning lady's assistance and brought her from the water unconscious. Miss Young had not fully recovered at last accounts.

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, July 29.—The cotton market opened steady at an advance of seven points to a decline of one point, and after a little irregularity, during which prices showed rather a sagging tendency, ruled generally firm, though not especially active. Soon after the call it developed that brokers ususally supposed to operate either for the New Orleans bull contingent or for interests closely associated with this party, had liberal supporting orders for the new crop months, including October and December at around last night's finals, and this in connection with the firm cables soon started a covering movement which lasted during almost the entire session. Later the weather which had at first been considered favorable on account of the rains in the sections mentioned by the weekly Weather Bureau report of Tuesday as in need of moisture, also became a source of apprehension owing to the numerous telegrams received here from the South that the wet weather would delay maturity, promote the growth of grass and revive apprehensions as to boll weevil. Wall street was a good buyer presumably for covering shorts, and toward the close a demand developed for August, which was also supposed to be for short account, and that option displayed great firmness on a surprisingly few transactions. Opening at 11.97, it was bid up to 12.38, sold at that, and at the close was 12.37 bid, a net advance of forty-seven points. July meantime was neglected, selling four or five times between 12.90 and 13.00, closing at 13.00 bid, a net gain of twenty-five points. The new crop displayed an upward tendency during the morning and in the last hour reached the highest point of the session, with a net advance of fifteen to twenty-four points. Just before the close there was a little realizing, however, and while the market was finally steady the new crop was slightly off from the best, being net nine to twenty-two points higher. Sales were estimated at 100,000 bales.

A FATHER'S GRATITUDE.

Many a Family in Wilmington will appreciate the following.

Many a strong man and many a healthy woman has much for which to thank father and mother. The care taken during their childhood brought them past the danger point and made them healthy men and women. Children are generally bothered at some period with incontinence of urine, and inability to retain it is oftimes called a habit. It is not the children's fault—the difficulty lies with the kidneys, and can be readily righted if taken in the proper way. A Wilmington parent shows you how.

J. T. Ebert, of 515 South 6th St., mattress maker, says: "I used Doan's Kidney Pills in my family. My little girl complained of severe pains in the small of her back, and the kidney secretions were dark and full of brickdust sediment. We were very much worried about her and when I learned of Doan's Kidney Pills I went up to R. R. Bellamy's drug store and got a box and gave them to her. Since using them she has improved wonderfully and is a different child. Her kidney secretions cleared up, she does not complain of her back, and in fact Doan's Kidney Pills gave her new life." We are very much pleased with them and you can use my name and welcome."

For sale by all dealers. Price, 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

OFFICE OF D. H. HARDY, Secretary of State, AUSTIN, TEX., Nov. 21, 1900.

I have found Dr. Moffett's TEETHINA a splendid remedy and aid for my teething children. When my oldest boy was a teething child, every succeeding day warned us that we would inevitably lose him. I happened upon TEETHINA, and began at once administering it to him, and his improvement was marked in 24 hours, and from that day on he recuperated. I have constantly kept it and used it since with my children, and have taken great pleasure in sounding its praises to all mothers of young children. I found it invaluable even after the teething period was passed.

How Flies Are Able to Taste.

The proboscis of the fly and the tongues of bees and ants are furnished with numerous delicate hairs set in minute pits. These are perhaps connected with the organ of taste; but, though the exact locality of this sense in insects is uncertain, we know that the groups of cells in the tongues of animals called taste bulbs form in part the ends of the organ of taste. These vary in number, increasing in the higher animals. They are very close and exceedingly numerous in man, while the tongue of even the cow has some 35,000 taste bulbs.

It would be interesting to know whether each special taste excites a special group of nerves and that only, thus corresponding to the auditory nerves. These taste bulbs were discovered in 1867. Each one consists of two kinds of cells, one set forming an outer protective covering, through an opening in which project from five to ten of the true taste cells. Though important, they are not apparently an essential part of the organ, for birds and reptiles have none, but neither have they a keen sense of taste, except perhaps the parrot.—Chambers' Journal.

Concerning the Letter "Y."

A writer in Science denies that the letter "y" is a lineal descendant from the Roman "Y," which in the time of Cicero was borrowed from the Greek alphabet to represent upsilon in the translation of Greek names. The latter is only used, he says, as a vowel to transliterate upsilon in loan words either direct from the Greek or indirectly through Latin or French. In a great majority of cases the English "y" is a semiconsonant corresponding in value with the continental "j." Along with the other Roman letters, "y" was adopted by the Anglo-Saxons from the Latin alphabet, with a value approximating to that of "i." In fact, he claims that there is not a lineal descendant of the Anglo-Saxon "y" now in existence. The letter "y" in modern English words is, curiously enough, he claims, not a "y" at all, but a lineal descendant of the Anglo-Saxon "g," which was the Roman "G" evolved by the Romans out of an earlier "C."

Nature's Curious Tree Law.

Let us observe a law common to all trees. First, neither the stems nor boughs of the maple, elm or oak taper except at the point where they fork. Whenever a stem sends forth a branch and a branch sends off a smaller bough, bud or stem, they remain the same in diameter, and the original stem will increase rather than diminish until its next branch starts. No bough, branch or stem ever narrows near its extremity except where it parts with a portion of its substance by sending off another branch or stem.

All trees are alike in this respect, and if all the boughs, branches, stems, buds and blossoms were combined and united without loss of space they would form a round log the same in size and diameter as the trunk from which they spring. This is one of nature's imperative laws and never fails to prove true.

A Pack of Cards.

The ordinary playing cards of today are derived from a stick game supposed to have originated in this country. Fifty small sticks are a pack. The "game" was originally for the player to divide the sticks rapidly with his two hands, the opponent guessing which hand held the larger number.

Owners of sticks spent rainy days in carving them. The Asiatics borrowed the game and carved more elaborate counters out of ivory. Those with different carvings grew to have different values. Arranging them in groups of fours made it necessary to add two to the original number. Then thin slabs of ivory began to be used.

For centuries after this all playing cards were hand painted, at first on ivory or metal, afterward on cardboard. The pictures, at first legendary heroes and ladies, gradually became the fixed, wood faced caricatures we now know, and these, coming back to America in their westward journey around the world, find our Pacific coast Indians still juggling the same kind of sticks their forefathers used.—New York World.

The Word "Starvation."

The word "starvation" was introduced into the English language by its coiner, Henry Dundas, afterward Viscount Melville. It was originally used by him in a speech in parliament on the American debate in 1775 and was immediately caught up and applied to himself in a political nickname, so that he was known thenceforward as "Starvation" Dundas.

"I shall not," such was his declaration, "wait for the advent of starvation from Edinburgh to settle my judgment."

Before the time of Dundas "starve," "starving," "starved" and "starveling" were in use, but hunger or famine represented the state of starvation.

Although this word has now an established place in our vocabulary, it was at first vigorously opposed by many, and on just grounds, as of hybrid formation. The root "starve" is old English, while the ending, "ation," is Latin. It does not appear in any English dictionaries until the year 1800.

Deep Sea Fish.

Great forests of seaweeds cover the bottom of the ocean and reach from the greatest depths to the surface. In these forests there is life more diversified than in the primeval forests of the tropics. Spiders and wormlike animals of enormous size, infusorie, crabs, sea urchins, shells, crustaceans, starfish, turtles and millions of other living things of all kinds find their food in the equally varied plant life of the deep sea.

A curious circumstance connected with deep sea fish is that none of these has ever been brought up alive. Recent deep sea explorations reveal the fact that the ocean still contains immeasurable treasures which await development and utilization by human inventiveness. The most fertile acre of cultivated land is a sterile desert compared with one acre of the surface of the deep sea bottom.

Wet Shoes.

The usual—and the wrong way—of treating wet boots is to take them off and put them on the fender or the radiator to dry. This method spoils the boots. Too much heat cracks and hardens leather.

Another wrong way is to stand them on their soles anywhere to dry.

The proper way is to place the boots, soles upward, near enough to the fire to dry slowly and properly, but not to steam during the drying.

The soles should always be turned upward, even when the boots are only a little wet, for this way enables the air to reach the wettest part of the leather first.—American Queen.

The Colossus of Rhodes.

The Colossus of Rhodes, a bronze statue, was 105 feet high. It was made by Chares, who, aided by an army of workmen, consumed twelve years in its construction. It remained in position in the harbor of Rhodes for sixty-six years and was thrown down by an earthquake B. C. 224. It lay on the ground 894 years and was sold to a Jew for old metal. He carried away 900 camel loads, or about 720,000 pounds, of bronze.

The "FORCE" Food Company. BUFFALO, N. Y.

Massachusetts College of Pharmacy.

BOSTON, June 25, 1903.

The "Force" Food Company, Buffalo, N. Y.:

GENTLEMEN—A rumor having reached me that your product, "FORCE," contained injurious ingredients, I took the occasion to analyze it, in the interest of my own family and of some friends who are liberal users of it.

It may interest you to know that I found it consisted exclusively of Whole Wheat, Barley and Salt, and is absolutely free from any injurious elements whatever.

Permit me to express my sincere regret that such a serious and baseless rumor should gain footing with the public.

You are free to use this letter in any way that will help to do your product justice.

Yours truly,

WILBUR L. SCOVILLE.

Massachusetts College of Pharmacy.

BOSTON, June 30, 1903.

To Whom It May Concern:

At the invitation of The "FORCE" Food Company, of Buffalo, I have visited their Mills and made a careful examination of the materials from which "FORCE" is prepared, and the processes which convert it into its finished condition.

I found that "FORCE" consists exclusively of what my previous analysis indicated, viz.: Whole Wheat and Barley, with a flavoring of Table Salt, flaked, cooked and sterilized by 300 degrees of heat.

A feature of the manufacture which impressed me considerably was the fact that the process is entirely mechanical, the food being prepared, cooked and boxed by machinery, without ever coming in contact with the hands or clothing of the mill operatives.

I was also gratified to note that an experienced Chemist daily supervised the entire output, and that each day's manufacture was also tested by an expert cook.

Signed, WILBUR L. SCOVILLE,
Professor of Theory and Practice of Chemistry.

June 26, 1903.

The "Force" Food Company, Buffalo, N. Y.:

GENTLEMEN—In view of the rumors regarding the alleged adulteration of "FORCE," it has been a satisfaction to me to visit your Mills, investigate, and analyze your product.

You are free to publish this statement made over my signature, that I found "FORCE" to be absolutely pure, consisting solely of Whole Wheat and Barley, flavored with table Salt, and free from any injurious substance whatever.

I examined, in detail, the various steps in the manufacture of your product, such as the steam cooking, the flaking and the roasting, as well as the packing, and find all to be remarkably clean and of absolute healthfulness. The final roasting is done at a temperature above 300° F., which, with the steam cooking, completely sterilizes the product, and the entire process, from the first step to the final sealing of the package, is a mechanical one, the product at no time coming in contact with the hands or clothing of the persons handling the machines or packages.

Very respectfully,

HERBERT M. HILL,
Chemist to the City of Buffalo.

See page 148 of "Cereal Breakfast Foods," Bulletin No. 84, of the Maine Experiment Station, a State Institution, which has analyzed "FORCE" with other foods, in the public interests.

The Morning Star.

WILMINGTON, N. C.

THURSDAY MORNING. JULY 30.

THE JETT AND WHITE TRIAL.

Many Witnesses Have Been Summoned. Valuable Evidence for the Commonwealth Secured.

By Telegraph to the Morning Star.

CYTHINANA, KY., July 29.—The court for the second trial of Curtis Jett and Thomas White, for the murder of James B. Marcum at Jackson, Ky., opened to-day's session at 8:30 A. M. Fifty-one witnesses for the commonwealth answered to their names. Prosecuting Attorney A. T. Byrd, who conducted the commonwealth's side of the case at the trial at Jackson, made the opening statement for the prosecution.

While the defence has subpœnaed over a hundred witnesses to impeach those testifying for the commonwealth and prove alibis for Jett and White in the Marcum murder case, the prosecution is also securing many valuable witnesses that could not be secured during the first trial. Officers arrived to day from Breathit county with Samuel Little who is considered a stronger witness than either B. J. Ewen or John L. Patrick. It is stated that Samuel Little not only saw Jett and White just before Marcum fell and again after the shooting, but also that he witnessed the shooting in the court house. Little was arrested last night by the soldiers while in hiding and brought here to-day by a deputy. Little is related to Curtis Jett. John Freeman, another important witness for the commonwealth, who is said to have fled to the mountains during the trial at Jackson last month, was also brought in by a deputy to-day. Both will be held until they are called by Commonwealth Attorney Byrd.

Capt. Ewen left the stand after he had been subjected to a vigorous cross-examination by the attorneys for the defence. After his testimony Judge Osborne asked him if he desired guards to take him across the river to the camp. He said that he did and he was temporarily placed in one of the jury rooms until the military were called for and they took him to Camp Licking. On the witness stand it developed that he had made different statements to Judge Hargis and others immediately after the killing of Marcum in Breathitt county. He gave as his reasons that he was afraid of Hargis and Callahan. He said that Hargis, Callahan and Combes had called him into consultation after the killing and told him what to say and that he had agreed to do so, as he was afraid of being killed then and there. This created some stir in the court room and immediately after he had left the stand some applause was started which Judge Osborne promptly suppressed.

CONFESSED MURDERER.

Arrested in Richmond, Va , and Committed to Jail for Drunkenness.

By Telegraph to the Morning Star.

RICHMOND, VA., July 29.—Harmon Truman Coates, who was committed to jail here for ten days for drunkenness and who has been wandering in the South for over a year, has confessed to the police authorities that he is a murderer. The crime according to his confession was committed at Spring Valley, N. Y., May 19th, 1902, and the victim was Louis Hull, of that town. A telegram from Spring Valley received to-day confirms the story. Coates says he was born in Paterson, N. J. He posed as an umbrella mender while here. Coates also has given to the police the names of gangs of postoffice thieves with whose operations he was familiar.

JUDGE KAVANAUGH'S DECISION

In Case of Strikers Charged With Violating an Injunction of Illinois Courts.

By Telegraph to the Morning Star.

CHICAGO, July 29.—Judge Kavanaugh in a decision handed down to-day in the habeas corpus case of four strikers for violation of an injunction granted to the Illinois mallable iron works, decided that labor unions have the right to place pickets about a point where a strike is in progress and he also declared that workmen have the right to persuade workmen to quit. The judge, furthermore, held that sending men to jail upon affidavits that they have violated an injunction is illegal. Judge Kavanaugh's decision is directly opposed to decisions rendered in the Superior Court.

By Cable to the Morning Star.

LONDON, July 29.—If Cuba fails to float her proposed loan of $35,000,000 in the United States she will have no difficulty in doing so here. Several British financiers who have been approached on the subject by the Marquis de Montoro, Cuban minister to Great Britain, have indicated their willingness to subscribe, but the minister is unable to commit the Cuban government because of lack of instructions from President Palma. Minister Montoro understands that Senor Palma will soon decide where and how the loan will be floated.

REQUIEM MASSES IN CITY OF ROME.

One for Repose of Soul of Pope Leo; the Other for the Late King Humbert.

ANNIVERSARY OF HIS DEATH.

Mass for the King Celebrated at the Pantheon—For the Pope at the Sistine Chapel—Both Attended by Large Crowds of People.

By Cable to the Morning Star.

ROME, July 29.—Rome this morning was the scene of one of those dramatic contrasts which are now so characteristic of the Eternal City. While at the Vatican, in the Sistine chapel, a solemn requiem mass was being intoned, with all the solemnity the Catholic church can impose, for the repose of the soul of Leo XIII, the spiritual monarch who claimed Rome as his capital, another and no less solemn requiem mass was being celebrated in the magnificent Pantheon for the repose of the soul of the late King Humbert, the temporal monarch, the capital of whose kingdom was Rome. King Victor Emanuel and the Dowager Queen Margaret came here on purpose to attend the annual mass which is celebrated on the anniversary of the assassination of King Humbert, which occurred three years ago. The King drove to the Pantheon, arriving there in time to meet Queen Margaret, who was dressed in deepest black. After a tender embrace, mother and son entered the Pantheon, heard the mass and placed wreaths on the graves of Kings Humbert and Victor Emanuel. The entrance and exit of their majesties was witnessed by a large crowd.

At 11 o'clock the members of the municipality of Rome, with the exception of those of their number who a few days ago went to the Vatican to condole with the carmerlengo on Pope Leo's death (as representatives of the clerical party of the city government) visited the Pantheon in a body and placed wreaths on the tombs of the two kings.

The second requiem mass in the Sistine chapel was termed the foreign mass. The cardinal who celebrated it was Cardinal Koph, bishop of Breslau, a German, aided by three foreign cardinals. The beautiful chapel overflowed, as it did yesterday, with the faithful.

In the evening there was a public procession through the streets to the tombs of King Humbert and King Victor Emanuel. It passed off quietly, though thousands of persons witnessed the demonstration and the procession itself was over a mile in length. All the shops were shut and there were more outward signs of mourning than have been seen in Rome in recent years.

The general opinion was expressed that the anti-clericals succeeded in making a successful counter demonstration against the recent activity of the clericals, but that they did so without any breach of propriety and without wounding the feelings of the Catholics and regardless of political affiliations.

Prince Chigi, marshal of the conclave, visited Cardinal Gibbons to-day and had a long and cordial conversation with the American prelate. All the diplomats accredited to the Vatican have left their cards at Cardinal Gibbons' residence and he has been visited by the high ecclesiastical dignitaries and the chiefs of the religious orders.

Cardinal's Conclave.

ROME, July 29.—Cardinal Logue, archbishop of Armagh, had an interview to-day with Cardinal Gibbons. When asked to-day what he thought of the objections frequently mentioned against Cardinal Gotti being elected Pope, on the ground that his being a member of a religious order would prevent him from dealing in a broad spirit with Catholic problems in America and Great Britain, Cardinal Logue said to a representative of the Associated Press:

"It is absurd. Cardinal Gotti formerly was an internuncio and has mixed with the representatives of the various powers. He knows the prevailing conditions as well as anybody. Just because he is a Carmelite it does not follow that he is narrow-minded. Morever, it is unreasonable to attribute too much weight to the personality of the new Pope. International matters and international policy now are almost invariably settled by commissions of cardinals."

Superstitious people here find an omen in the fact that Cardinal Rampolla drew apartment No. 58, which in the book of the lottery stands for Pope and consequently they come to the conclusion that fate has marked him to be the next Pope. Over the door of each of the cells has been placed the coat of arms of the cardinal who is to occupy it. Should all the sixty-two cardinals now in Rome enter the conclave, it will be the most numerously attended in history. The conclave which elected Leo was attended by sixty-one cardinals. In the past, popes have been elected by as low as nine.

CHAMPION YOUNG CORBETT

Knocked Out Jim O'Neil, of Philadelphia, in the Fifth Round.

By Telegraph to the Morning Star.

PHILADELPHIA, July 29. — Champion Young Corbett knocked out "Jim" O'Neil, of this city, in the fifth round to-night at the National Athletic Club. The first three and a half rounds were tame, O'Neil avoiding the champion's rushes. In the fourth round O'Neil hit Corbett three glancing blows on the jaws and was about to deliver a fourth one when Corbett dropped to his knees to avoid it. This gave the local man confidence in the fifth round which proved fatal for him. He met Corbett's rushes and in an unguarded moment received a terrific right hand punch on the jaw which sent him to the floor and he was counted out.

WIRELESS TELEGRAPHY.

Easy for the German Company to Intercept Marconi Messages to England.

By Cable to the Morning Star.

BERLIN, July, 29.—The German Wireless Telegraph Company has issued a statement regarding Signor Marconi's utterances on the possibility of the German company intercepting Marconi messages in England. The German company says all that is necessary is to erect a strong station on the shores of the Baltic or the North Sea with attuned wires to Marconi's station, Holdu, Cornwall, and it will be impossible for Marconi to receive transatlantic messages. The statement concludes: "Such procedure for fighting the world monopoly aimed at by Marconi could hardly be called chicanery, but more properly self-defence."

DAKOTA DIVORCE NOT VALID IN ENGLAND.

Husband Charged His Wife With Bigamous Marriage—Respondent and Co-respondent Guilty of Adultery.

By Cable to the Morning Star.

LONDON, July 29.—The validity of Dakota divorces in England was again raised to-day before the president of the divorce court, Sir Francis Jevens, in the suit for divorce brought by D. S. Constandindi against his wife, who is a daughter of Stephen Ralli, a member of the firm of Ralli Brothers, well known in New York as well as in London. The husband charged his wife with bigamously marrying Doctor Lance, the family physician. Mr. Constandindi obtained a judicial separation from his wife in 1899.

Judge Lawson Walton, counsel for the petitioner, explained the subsequent proceedings as follows: This delicately nurtured Lady of Belgravia went to a wild district north, emigrated to the half settled State of Dakota, became an American citizen, stayed six months there, fraudulently obtained a so-called divorce, and married the co-respondent there, thus using the lax Dakota laws for her own purpose."

"This," continued Mr. Walton, "was fraud on civilized jurisprudence."

The jury found the respondent and co-respondent guilty of adultery, awarded $125,000 damages against Dr. Lance and also found the petitioner guilty of the counter charge of adultery. His petition, therefore, was dismissed and argument on the points of law involved was postponed until to-morrow.

SENTENCE COMMUTED.

White Woman Convicted of Selling Liquor Without License.

By Telegraph to the Morning Star.

WASHINGTON, July 29.—President Roosevelt has commuted the sentence of Lucy Smith, a white woman convicted on the western circuit of Virginia, of retailing moonshine whiskey without license. The woman was convicted May last and was sentenced to pay a fine of $100 and serve six months in prison. The United States attorney recommended commutation of the sentence on the ground that the woman was the mother of five children, ignorant of the offence she had committed, that the children were dependent upon her and were in a destitute condition. The sentence was commuted, to expire Aug. 1st.

It is expected that the body will be removed to Liverpool Saturday for shipment to the United Statesand that the interment will take place at Washington.

MURDERER ARRESTED

Had Been a Fugitive from Justice for Twelve Years.

By Telegraph to the Morning Star.

SOMERSET, KY., July 29.—Richard Taylor, charged with the murder of Clay Haynes and who has been a fugitive for twelve years, was arrested at Stearns and lodged in jail here to-day. Taylor, it is alleged, had been mistreated by several persons, among them being Haynes. Taylor upon meeting Haynes, it is said, told him to say his prayers, as he was going to kill him. Haynes pleaded with Taylor for his life, but to no avail. After Haynes had finished praying he was shot to death. Taylor, after defying the sheriff, fled and travelled in Mexico and other Southern countries. At one time he was in the regular army for three years.

AWFUL ACCIDENT AT LOWELL, MASS.

A Score or More of People Killed and Some Fifty Others Injured.

BY GUNPOWDER EXPLOSION.

Plant of United States Cartridge Company Blown Up—Fourteen Frame Houses Demolished—Seven Burned—Inmates Were Killed.

By Telegraph to the Morning Star.

LOWELL, MASS., July 29.—Two small gunpowder magazines, situated in the very midst of the humble residences of fifty mill operatives, exploded today with a frightful concussion, and the resultant wave of death cut off the lives of more than a score of human beings and injured nearly fifty others. Half a dozen men who were loading kegs of powder from one of the magazines were blown to pieces; four boys, two hundred yards away, were killed by the force of the explosion, and fourteen frame houses within a radius of four hundred yards went down as if they had been built of cards. Seven of these houses immediately caught fire, caused by the kitchen stoves, and were completely consumed. At least three persons were caught in the ruins and burned to death, while seven or eight others, who were rescued, died subsequently of their injuries.

It is estimated that seventy separate pieces of property, including those already mentioned, were destroyed, while the force of the explosion wrecked windows, for five or six miles away.

The following is the list of those known to be killed: George Finn, John McMasters, Louis E. Richards, James L. Grady, all employed by the United States Cartridge Company. James B. Sullivan, Charles Moore, Jean Roleau, all were employed by the Stanley Forwarding Company. Gilbert McDermott, ten years; Michael McDermott, 12 years; Thomas Holligan, 11 years; Jos. Holigan, 10; Wm. Galloway, Robert Galloway, Robert Galloway, Jr., Albert Lebrun, Mrs. Catherine Riggs, Eddie Rogers, Geo. A. McDermott, Josephine Perusse, Mrs. Hickey Perusse. The nine last named were killed by the fall of their houses or burned to death.

Four persons are missing, two carpenters, names unknown, and John Riggs and Patrick Spencer.

Those fatally injured are: Amadee Boulanger, 18 years; Clarendon Goodwin, 60 years; both employes of the cartridge company; Mrs. Howard Burkett, Miss McDermott and Eliza Galloway.

The magazines were the property of the United States Cartridge Company, of this city, but fortunately were situated more than a mile away from the factory itself. They were constructed some thirty years ago in what was then a broad open field on the banks of the Concord river. During the last decade small wooden dwelling houses have gradually sprung up in the vicinity, crowding nearer and nearer with fancied security to the two innocent looking little buildings, until they almost completely surrounded them except on the river side, the nearest house being scarcely fifty feet away.

Both magazines ordinarily contained two or three tons of gunpowder in tin kegs. The company has been for some time desirous of strengthening the floor of the magazine nearest the street, and this morning eight men, three of them employes of the company, three expressmen and two carpenters were sent there with three large express teams to take out the powder and mend the floor. Two of the teams had been loaded and the other was almost full when at six minutes past nine o'clock the explosion occurred.

It was a long time before the actual cause of the explosion could be ascertained.

It was thought at first that every one within a radius of a hundred feet of the magazine had been killed, but later it was found that Clarendon Goodwin, the foremen of the men who were loading the powder on the teams, had survived, together with one of his assistants, Amadee Boulanger, and this afternoon the latter was seen in the hospital.

He said that the men went down to the magazine nearest the street to fix the floor, and after the teams had been loaded with the powder that was in the magazine, it was discovered that a can of nitro-glycerine which was stored in the magazine was leaking. Mr. Goodwin picked up what he thought was a jug of water and began to pour it on the nitro-glycerine with the idea of diluting it and washing it up. As soon as the fluid from the jug struck the floor he found it was nitric acid. The floor at once began to smoke, and when the men saw it they rushed from the building, but had not gone ten feet when the explosion occurred. This magazine was therefore the first to go up, followed immediately by the gunpowder in the three teams, and several seconds later by the second magazine.

To those who heard the crash it seemed as if there were two distinct explosions, with a continuous roar between them. There are, however, five holes in the ground, which clearly indicates five explosions.

The entire catastrophe, however, occupied the space of scarcely five seconds, but in that time the surrounding property was swept as if a small volcano had broken forth in its midst. Every house within 200 yards collapsed. Trees were blown down, the grass within a hundred yards mowed as if by a lawn mower, while bricks from the two magazines were hurled far across the river and all over the neighborhood. For several minutes afterwards the air was completely filled with smoke and dust, illuminated by the glare from the already burning houses.

The Work of Rescue.

The work of rescue began at once, but in many cases the flames had already gained full away over the crumpled ruins and several persons were burned to death before the debris which covered them could be removed.

The property is situated just over the Lowell Line, in Tewksbury, but the Lowell fire department did most of the work in caring for the wounded. Before a stream of water was started from the engines the hose from all the wagons was taken out and the bodies of the wounded were placed in the wagons and hurried to the hospital. Ambulances soon appeared on the scene and assisted the firemen and all sorts of vehicles were pressed into service. Nearly forty persons were taken to the two hospitals within half an hour, while many more whose injuries were slight had their wounds dressed and remained on the scene, where they assisted in caring for the less fortunate.

Troops Called Out.

The explosion shook the city and within half an hour there were at least five thousand people on the scene of the catastrophe. The crowd so badly hindered the work of caring for the wounded that the mayor sent out a militia call. Three companies responded, and three hours later had thrown a cordon of men around the district and cleared the place of every one except those immediately engaged in quenching the flames and searching for victims.

Two hundred yards further down the river from the second magazine the firemen suddenly came across the bodies of four little boys who were about to have a swim. A fifth member of the party wasin the river when the explosion occurred and escaped without injury.

Apparently the force from this second magazine was expended in two directions, north and south. On the north it completely demolished the house of William Riggs, about fifty yards away, almost burying Mrs. Riggs and badly injuring her little son. Mrs. Riggs died before being taken to the hospital.

On the other side of the magazine was a grove of trees, through which the explosion tore a path fifty feet wide for a distance of nearly three hundred yards. The four little boys were caught in the centre of this path and three were instantly killed, the body of one of them being frightfully mutilated, the head being completely blown off. The fourth was alive when he was discovered by the police and firemen, but did not long survive.

Most of the property destroyed consisted of small buildings constructed of wood and at a comparatively small cost. The property loss, therefore, will not be heavy.

The select men of the town of Tewsbury believe that $75,000 will cover the entire loss.

HIS LIFE SAVED.

Negro Sentenced to be Hanged To-day in Birmingham, Ala.

By Telegraph to the Morning Star.

BIRMINGHAM, ALA., July 29.—Felix Hall, a negro, who was sentenced to be hanged here to-morrow, has had his life saved and probably will regain his liberty. He was identified by T. M. Morrissey, of Vicksburg, yesterday as Henry Jackson, who says the negro was in Louisiana at the time of the killing of Norwood Clark, of whose death he was convicted.

Hall has claimed all along that his name was Henry Jackson. He said he could not establish the alibi at the trial because he could not get his witnesses located in time.

Governor Jelks has telegraphed a reprieve and Hall probably will be set at liberty as soon as necessary legal forms can be complied with.
